

Bridgewood was founded in 1974 on the belief that our dreams and lives are built on faith, hard work and fair dealing. Over the years, our founder has proven time and again that these beliefs are undeniably true. This magic recipe of dreaming dreams, overcoming challenges and playing a part in building the lives of employees, dealers and customers who have welcomed our products into their homes for the last 45 years has led to a legacy of service to others that we are proud to call our own. What began as a part time operation to build tables for a local recreational vehicle manufacturer has evolved into a second-generation family business dedicated to bringing some of the finest cabinetry available anywhere, to American homes everywhere. At Bridgewood, we believe that life is best lived in service to others and we look forward to serving you.

## STANDARD GLASS/MIRROR OPTIONS

## BACKPAINTED GLASS

## RECYCLED LEATHER

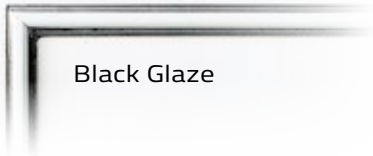

# MAPLE

Maple's delicate graining and light consistent color make it the perfect choice when subtlety is desired.

## GLAZE

Some glaze/finish combinations require samples for customer approval. See Bridgewood specification manual for details.

Natural

Warm Gray

Caramel

Cashew

Safari

Brown Olive

Ginger

Bourbon

Shale

Koala

Java

Iron

Black Tea

Onyx

Ebony

Maple cabinetry is offered Standard, Satin or Super Matte finishes.

- **Standard finish** has a cured target sheen of 34, with 100 being a mirror finish and zero having no gloss.
- **Satin finish** has a slightly softer look than our Standard finish, with a cured target sheen of 17.
- **Super Matte finish** creates a furniture look with an eggshell finish with virtually zero gloss.

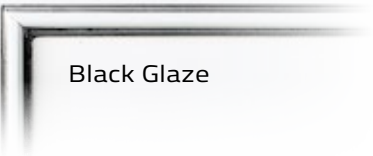

Note: Photography is an artistic representation of color tones, but can never reflect the true beauty of wood. Always make sure to make your final selection from dealer provided samples.

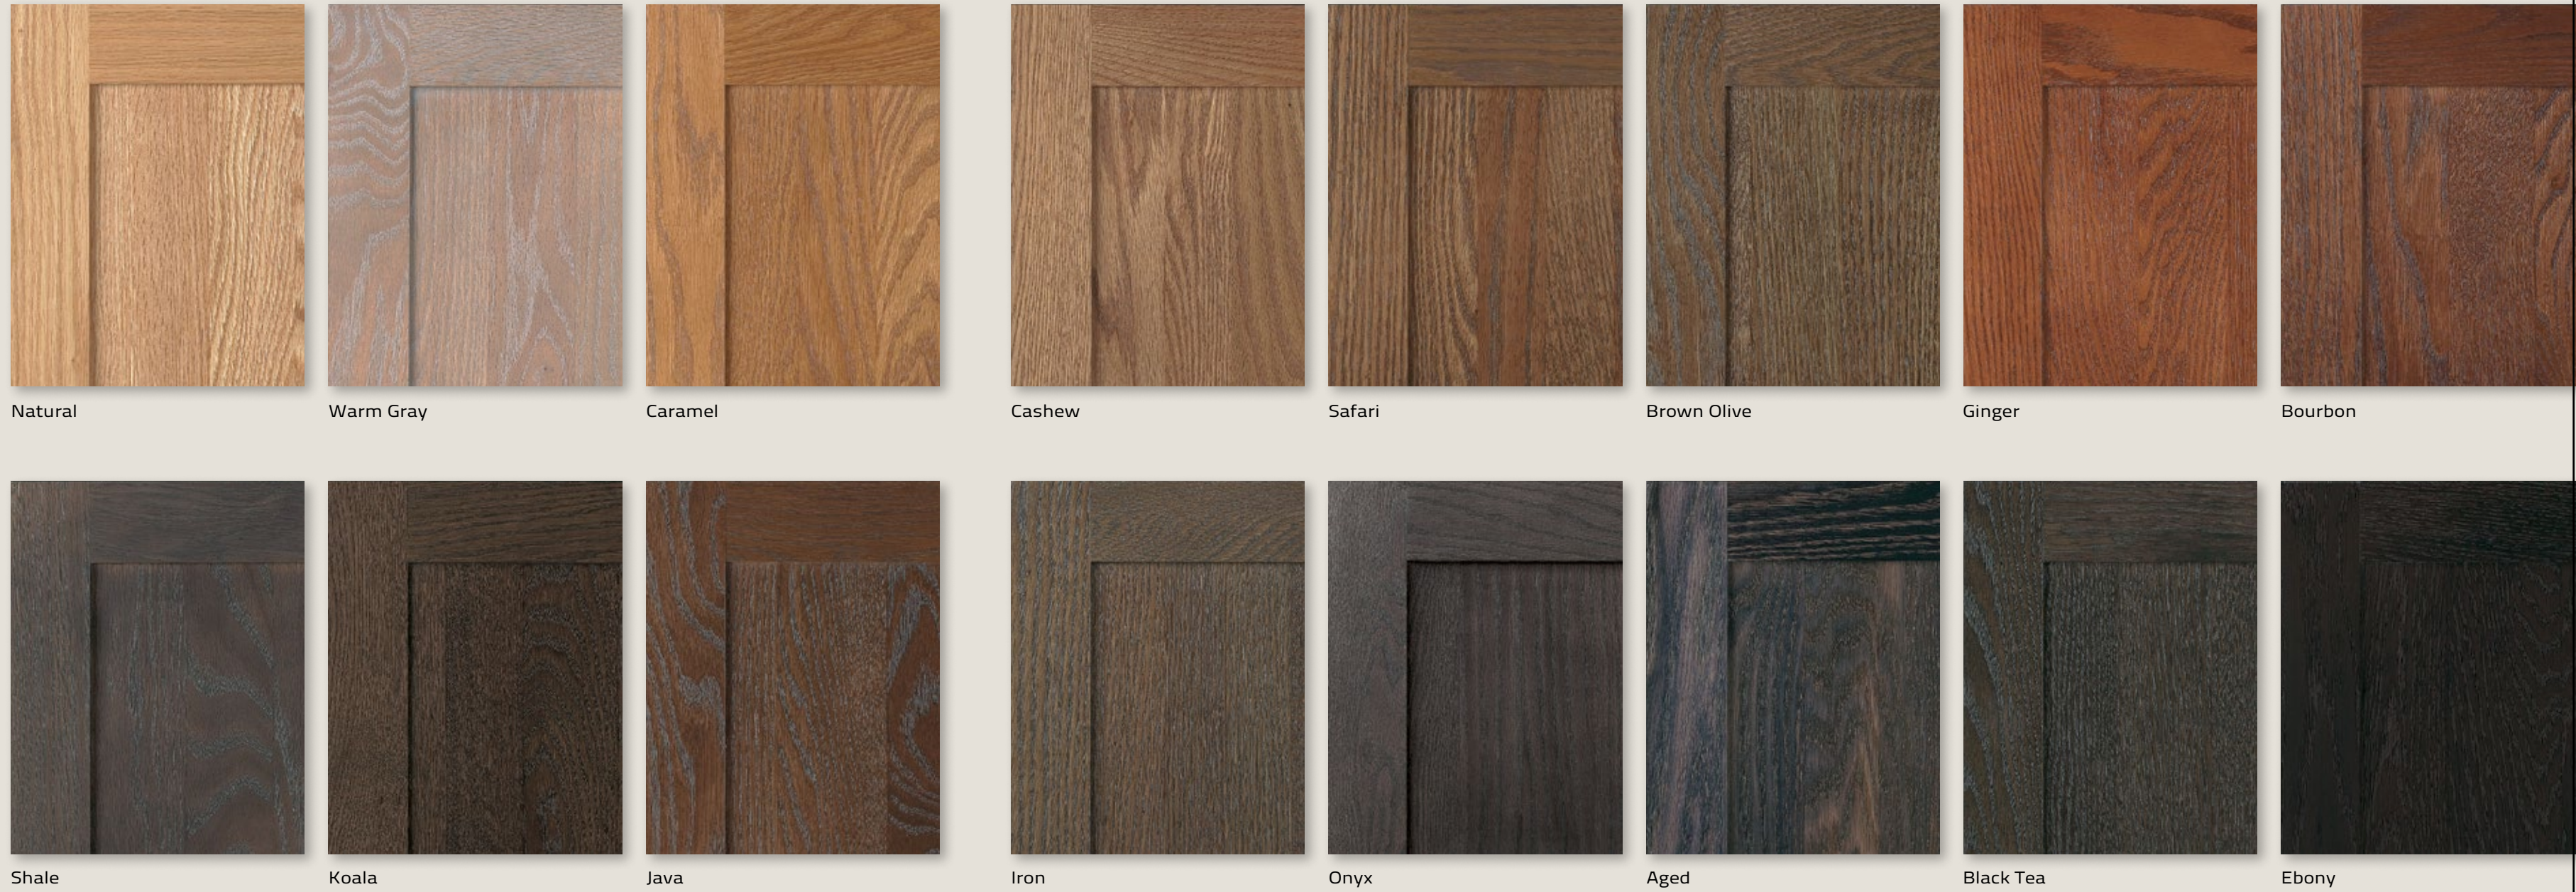

# RED OAK

Red Oak is a medium to light colored wood with a very defined grain, exhibiting the occasional mineral streak or pin knot. Oak wood accepts stain in all color ranges from light to dark in a very uniform and predictable manner.

## GLAZE

Some glaze/finish combinations require samples for customer approval. See Bridgewood specification manual for details.

Oak cabinetry is offered Standard, Satin or Super Matte finishes.

- **Standard finish** has a cured target sheen of 34, with 100 being a mirror finish and zero having no gloss.
- **Satin finish** has a slightly softer look than our Standard finish, with a cured target sheen of 17.
- **Super Matte finish** creates a furniture look with an eggshell finish with virtually zero gloss.

Note: Photography is an artistic representation of color tones, but can never reflect the true beauty of wood. Always make sure to make your final selection from dealer provided samples.

# HICKORY

Hickory is where beauty and durability meet. A dense durable wood with defined graining and color patterns running from dark to light. It's the right choice for the traditional customer with a taste for variety. Also available with rustic knots.

## GLAZE

Some glaze/finish combinations require samples for customer approval. See Bridgewood specification manual for details.

Natural

Warm Gray

Caramel

Aged

Cashew

Safari

Brown Olive

Ginger

Bourbon

Shale

Koala

Java

Iron

Onyx

Black Tea

Ebony

Hickory cabinetry is offered Standard, Satin or Super Matte finishes.

- **Standard finish** has a cured target sheen of 34, with 100 being a mirror finish and zero having no gloss.
- **Satin finish** has a slightly softer look than our Standard finish, with a cured target sheen of 17.
- **Super Matte finish** creates a furniture look with an eggshell finish with virtually zero gloss.

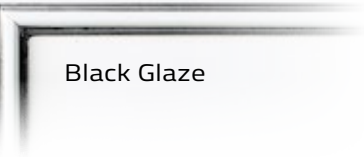

Note: Photography is an artistic representation of color tones, but can never reflect the true beauty of wood. Always make sure to make your final selection from dealer provided samples.

# KNOTTY ALDER

Large open knots reflect the unique character and beauty of nature. With cinnamon tones that can be stained for a wide variety of looks, Knotty Alder is perfect for creating a rustic look.

## GLAZE

Some glaze/finish combinations require samples for customer approval. See Bridgewood specification manual for details.

Ebony

Knotty Alder cabinetry is offered Standard, Satin or Super Matte finishes.

- **Standard finish** has a cured target sheen of 34, with 100 being a mirror finish and zero having no gloss.
- **Satin finish** has a slightly softer look than our Standard finish, with a cured target sheen of 17.
- **Super Matte finish** creates a furniture look with an eggshell finish with virtually zero gloss.

Note: Photography is an artistic representation of color tones, but can never reflect the true beauty of wood. Always make sure to make your final selection from dealer provided samples.

# CHERRY

Cherry's rich intricate grain patterns and varied hues have made it a staple for fine furniture. Because cherry darkens with exposure to light, it may take several months for it to reach its final patina. Cherry is also available with rustic knots.

# GLAZE

Black Glaze

Some glaze/finish combinations require samples for customer approval. See Bridgewood specification manual for details.

Natural

Warm Gray

Caramel

Cashew

Safari

Brown Olive

Ginger

Bourbon

Shale

Koala

Java

Cherry cabinetry is offered Standard, Satin or Super Matte finishes.

- **Standard finish** has a cured target sheen of 34, with 100 being a mirror finish and zero having no gloss.
- **Satin finish** has a slightly softer look than our Standard finish, with a cured target sheen of 17.
- **Super Matte finish** creates a furniture look with an eggshell finish with virtually zero gloss.

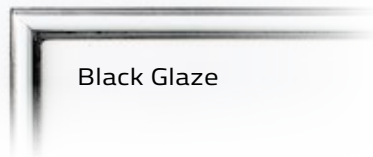

Note: Photography is an artistic representation of color tones, but can never reflect the true beauty of wood. Always make sure to make your final selection from dealer provided samples.

# WALNUT

Walnut is a very stable hardwood with a rich appearance. It is generally straight grained with rich dark brown heartwood and nearly white sap wood. In it's natural form, the difference between the heart and sap wood can be quite dramatic. Walnut finishes well in color ranges darker than the natural color of the wood, which minimize the color variations of it's natural state.

## GLAZE

Black Glaze

Some glaze/finish combinations require samples for customer approval. See Bridgewood specification manual for details.

Natural

Caramel

Java

Iron

Black Tea

Warm Gray

Brown Olive

Shale

Note: Photography is an artistic representation of color tones, but can never reflect the true beauty of wood. Always make sure to make your final selection from dealer provided samples.

Walnut cabinetry is offered Standard, Satin or Super Matte finishes.

- **Standard finish** has a cured target sheen of 34, with 100 being a mirror finish and zero having no gloss.

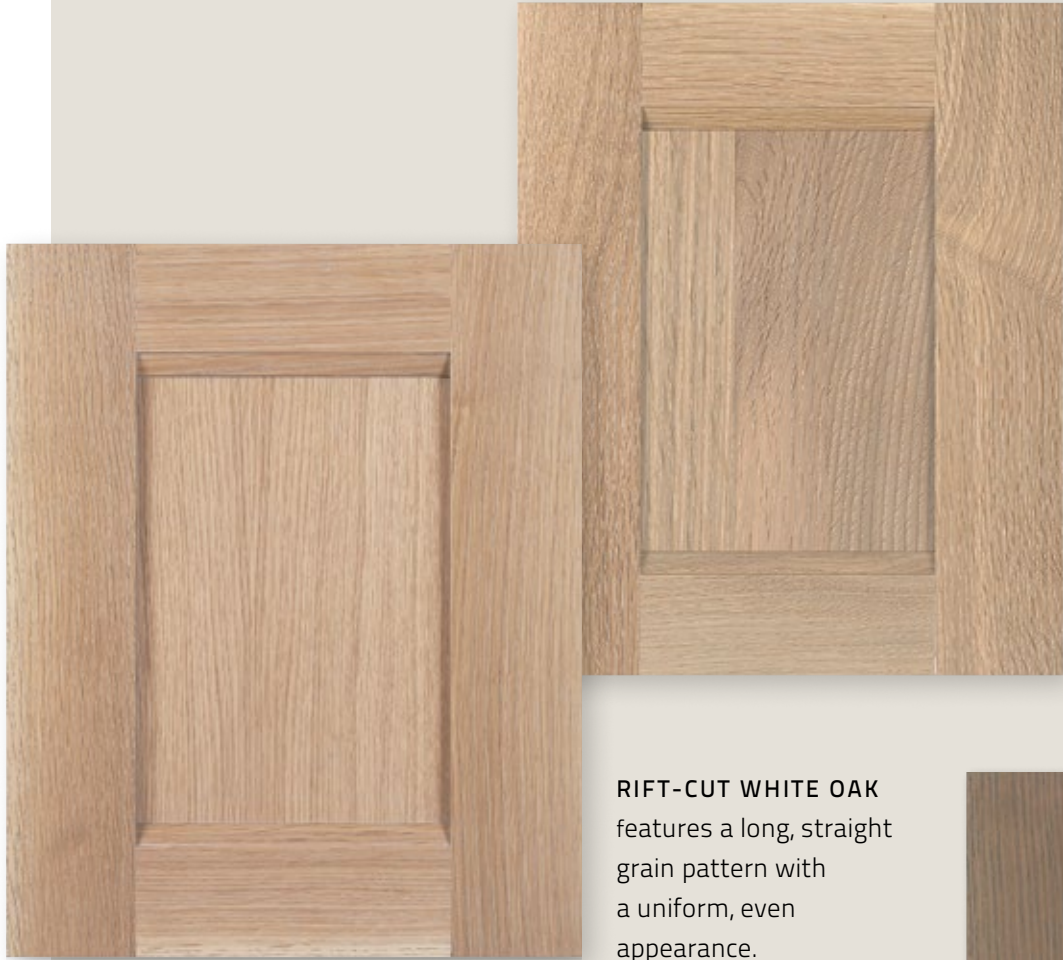

- **Satin finish** has a slightly softer look than our Standard finish, with a cured target sheen of 17.

- **Super Matte finish** creates a furniture look with an eggshell finish with virtually zero gloss.

# White Oak

White oak is valued in cabinetry and fine furniture for it’s tight grain and dimensional stability. Select Bridgewood door styles\* are offered in white oak with the choice of two distinctive grain selections: Rift-cut White Oak and Bespoke White Oak.

**RIFT-CUT WHITE OAK** features a long, straight grain pattern with a uniform, even appearance.

**BESPOKE WHITE OAK** features a grain pattern with more movement , which can include quartersawn grain with visible medullary rays and flecking.

\*The following door styles are offered in White Oak:

**Austin, Cologne, Craftsman, Deep Shaker, Lancaster, Milan, Mission, Portland, Scandia, Slim Shaker.**

All door frames are solid white oak.  
Rift-cut panels are white oak veneer.  
Bespoke panels are solid white oak.

**White Oak cabinetry is offered Standard, Satin or Super Matte finishes.**

- **Standard finish** has a cured target sheen of 34, with 100 being a mirror finish and zero having no gloss.
- **Satin finish** has a slightly softer look than our Standard finish, with a cured target sheen of 17.
- **Super Matte finish** creates a furniture look with an eggshell finish with virtually zero gloss.

PAINT

ON MAPLE AND MDF

Classic and tailored, or crisp and contemporary, the understated beauty of a painted finish creates a look that’s timeless. Make a subtle statement with neutral tones, ranging from white to black.

GLAZE

Some glaze/finish combinations require samples for customer approval. See Bridgewood specification manual for details.

**All painted finishes have a satin finish** with a cured target sheen of 17.  
(100 being a mirror finish and zero having no gloss)

Note: Photography is an artistic representation of color tones, but can never reflect the true beauty of wood. Always make sure to make your final selection from dealer provided samples.

# Era FINISHES

Era finishes represent the latest surfacing technology and offer a wide range of colors, in high-gloss, matte or linear textured patterns. These distinctive surfaces are scratch resistant and low maintenance, with high chemical and stain resistance, making them ideal to withstand the demands of today's hardworking spaces.

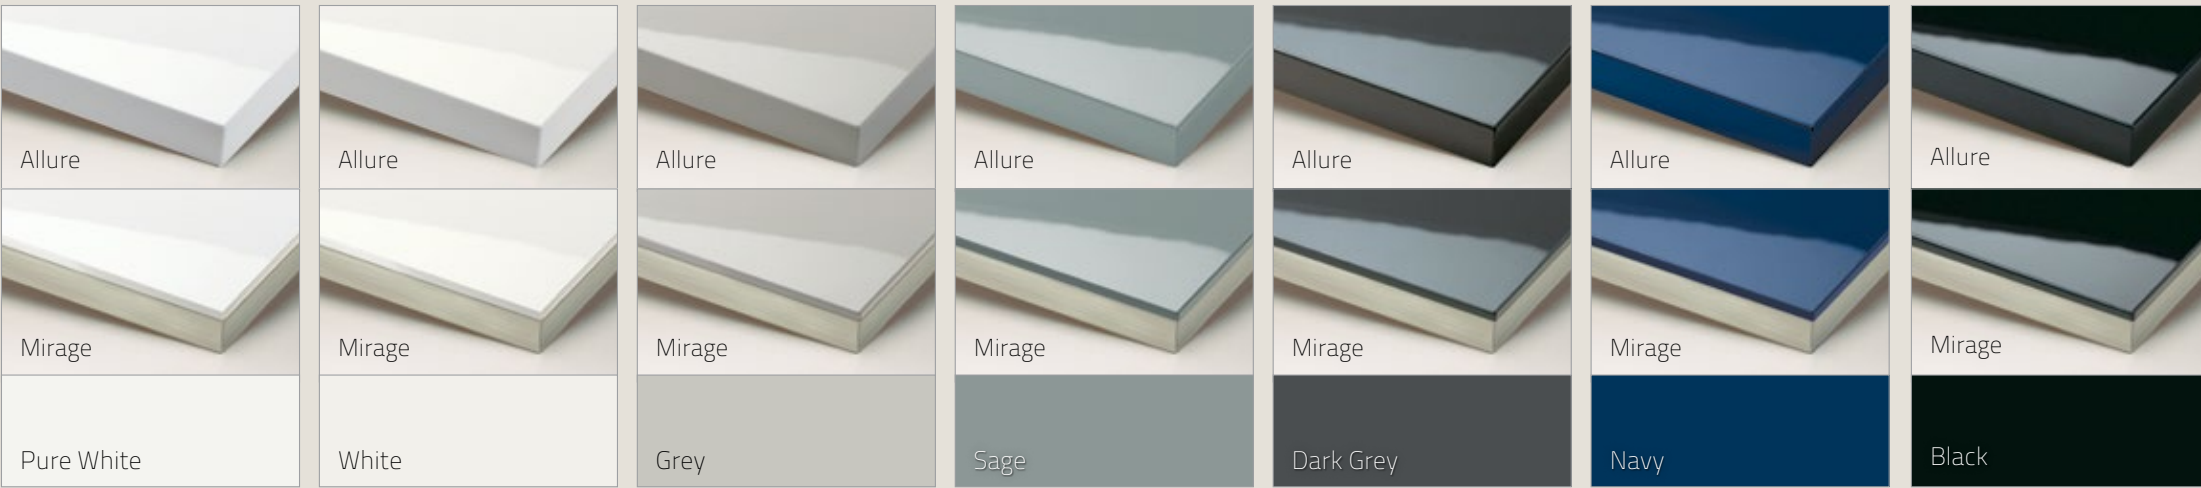

Premium architectural surfaces on engineered panels, Era finishes are available as slab doors and drawer heads. Close tolerances and tight reveals are achieved with the dimensional stability of these materials.

The edges of most doors and drawer fronts are finished with hot air applied edge banding, producing a seamless appearance, with no glue lines.

## Allure & Mirage

Allure and Mirage finishes feature a highly reflective, mirror finish with the most scratch resistant high-gloss acrylic available today. Color richness is enhanced by a UV stabilized top coat for ultimate depth and clarity. The impeccable surface consistency is achieved with a clean room lamination process. Allure finishes have color matched edge banding, while Mirage finishes feature contrasting edge detailing, which creates the effect of an inset, brushed metal band or back painted glass.

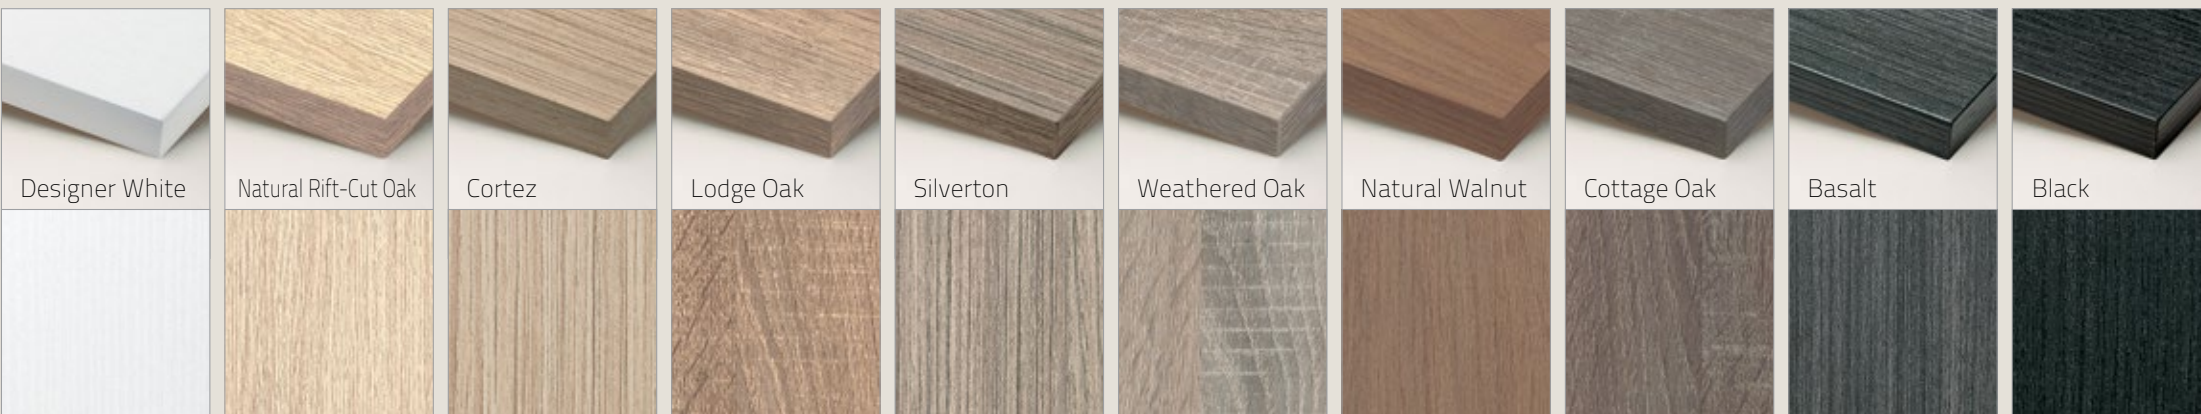

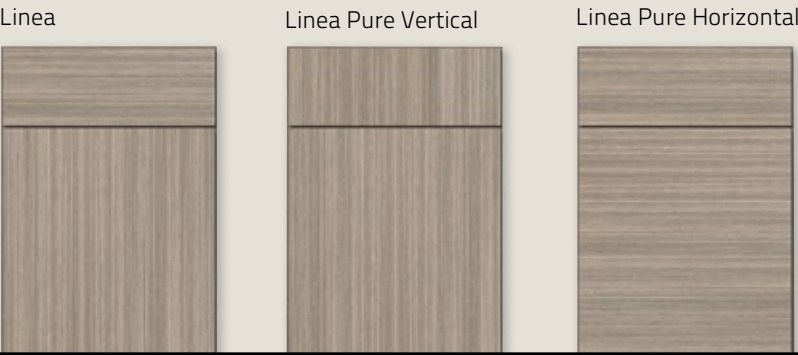

## Suede

Suede finishes features an incredibly smooth, matte surface designed to absorb light and minimize reflection. This creates a soft appearance and touch. The top hardcoat is UV stabilized for long lasting color richness and also has excellent scratch resistance and anti-fingerprint properties. The subtle tones of the Suede finishes create rooms with an understated elegance and also become the perfect complement when combined with the colors and patterns of the other Era finishes.

## Linea

High definition, structured melamine panels feature European trend-setting designs and deliver the look and feel of real wood along with the durability and reliability of premium engineered material. Linea patterns are offered with optional grain orientation to create different design effects.

# RANGE HOODS

HARDWOOD AND MDF

The right range hood can create a beautiful and functional focal point in your kitchen. Available in Walnut, Cherry, Maple, Hickory, Knotty Alder, Oak and MDF, with the stained and painted finishes shown on pages 12-25.

# LIGHTING

Lighting options for cabinet interiors, accent lighting and task lighting are custom engineered to complement Bridgewood cabinets with either face frame or frameless construction.

Advanced LED technology provides dimmable lighting with tunable color temperature, which can be controlled by zones with wireless remote control, smart phone app, or voice activated smart speaker.

Options can include Interior cabinet lighting that is automatically activated as drawers and doors open.

Long lasting LED lights and drivers are covered by a five year warranty.

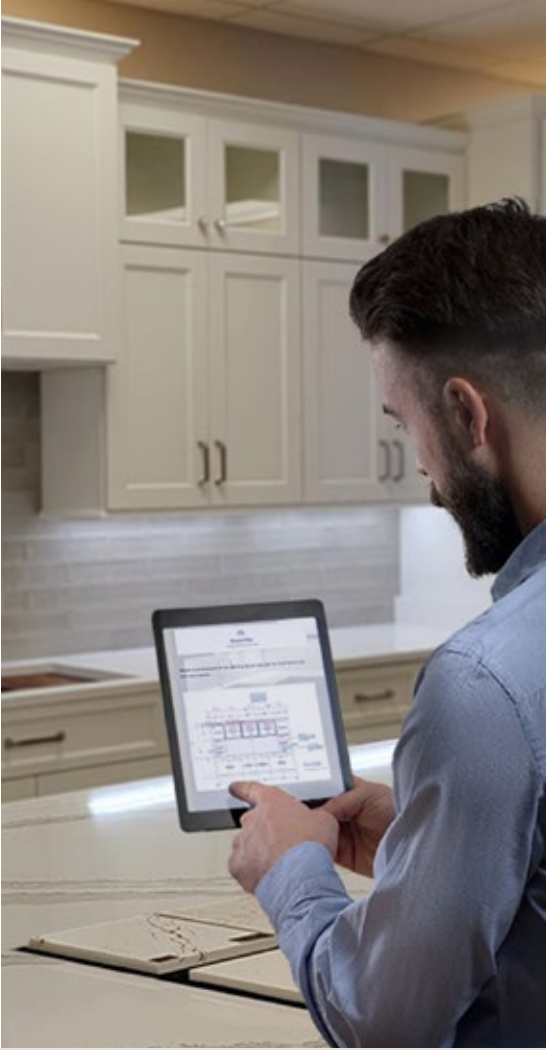

### ADVANCED LED TECHNOLOGY

- Designed for long life with up to 50,000 hours of operation.
- 5-year warranty on lights and drivers
- Independent lights are easily replaced.
- 24V technology provides even power distribution up to 24 feet. Longer lighting runs with fewer drivers than 12V systems.
- 280 diodes per meter provide uniform light without any visible dot pattern.

FIVE YEAR WARRANTY

**5** YR

- B. 5/8" solid wood drawer box with furniture finished dovetail joinery
- C. 5/8" solid white oak drawer box with dovetail joinery
- D. 5/8" solid walnut drawer box with dovetail joinery
- E. Blum Legrabox, metal drawer box (available on frameless cabinets only)

## blum® TIP-ON TOUCH-TO-OPEN DOORS AND DRAWERS

The Blum® TIP-ON, touch-to-open option creates the sleek look of a cabinet without pulls with the convenience of doors and drawers that open with just a light touch. Available for face frame or frameless cabinets.

TECHNOLOGY & CRAFTSMANSHIP

At Bridgewood, we believe in our people and our technology, always striving to have the best of both. We have over 220,000 square feet of manufacturing space here in the heartland, where every Bridgewood cabinet is built. We combine state-of-the-art equipment with old world craftsmanship and are continuously refining our process in order to offer high quality, semi-custom cabinets at home center pricing.
